A maze game interface. At the top left is a yellow star with a smiling face, representing the start. At the bottom right is a red flag with a white star, representing the end. The maze is a complex grid of black lines. A thick orange line traces a path from the start to the end, showing a solution to the maze. The path starts at the top left, goes down, then right, then down again, and continues with various turns until it reaches the flag at the bottom right. There are also some small decorative stars in the corners: a pink one at the top right and a teal one at the bottom left.
